Work Experience [

{

Title: "Senior Front-End Developer"

Company Name: "gen.video"

Date: Oct 2018 - Oct 2023

- Develop Influencer Marketing and Retail Analytic tools used by F500 companies.
- Work with Back-End Developers to plan/suggest API changes and debug.
- Assist in migrating the application from AngularJS to Vue.
- Participate in daily stand-up to discuss tasks and goals for the day.

},

{

Title: "Front-End Developer"

Company Name: "Robert Half International"

Date: May 2018 - July 2018

- Senior Consultant within the Salaried Professional Services division for Web Development
- Leveraged Pluralsight React training to redevelop portfolio.

```
    },
    {
        Title: "Front-End Developer"
        Company Name: "Inc Design"
        Date: Mar 2018 - Apr 2018
            - Updated W.R. Berkley Annual Report site, highlighting
              yearly  revenue via jQuery.
             - Enhance user experience by incorporating animations,
            carousel, and charts.
            - Worked directly with the designer to ensure pixel
              perfect representation and responsive design.
    },
    {

        Title: "Front-End Developer"
        Company Name: "AllianceBernstein"
        Date: Sept 2016 - Jan 2018
            - Developed and maintained various AB portal sites via
              Methode.
            - Worked with QA team to debug and test prior to publishing
              to production.
            - Support existing sites via requests from internal
              clients.
            - Collaborated on the creation of the company's pattern
               library.
    },

    {

        Title: "Front-End Developer"
        Company Name: "Alchemy50"
        Date: Mar 2016 - May 2016
            - Created a prototype of the application in HTML, CSS,
              JavaScript, jQuery, and jQuery UI.
            - Users could get ticker and stock information, highlight
              important sections of articles, share those highlights for
              meeting notes, access email, and move any panel as seen fit.
            - Transitioned the prototype from jQuery to AngularJS and
              NodeJS
    },

    {

        Title: "Front-End Developer"
        Company Name: "Mammoth Advertising"
        Date: Jan 2016 - Mar 2016
             - Developed sites for motion pictures My Big Fat
               Greek Wedding 2 and Miracles from Heaven.
            - Built an e-card generator for Miracles from
              Heaven.
```

```
        },
        {
                Title: "Front-End Developer"
                Company Name: "Pink Stone Capital Incubator"
                Date: July 2014 - Dec 2015
                - Utilize AngularJS, Canvas, and Node to create various
                  web  applications such as social network, avatar
                  creator,  ride-sharing, and a bike delivery service.
                - Worked closely with the designer to ensure pixel
                  perfect  design and optimal user interaction.
        },

        {

                Title: "Mentor"
                Company Name: "Thinkful"
                Date: Jan 2014 - July 2014
                - Held weekly one-on-one sessions with students
                  learning HTML, CSS, JS, and jQuery.
                - Provided feedback for assignments, alternative
                  solutions,  and introduced current development
                  trends.
        },

        {

                Title: "Teacher"
                Company Name: "3rd Ward"
                Date: Aug 2013 - Oct 2013
                - Instructed a Front-End Development course with a
                  focus on  HTML5, CSS3, JS, and jQuery.
                - Created a curriculum and exercises to highlight
                  semantic  HTML, CSS Animations, how to use jQuery
                  plugins, and  creating a slideshow.
        },

        {

                Title: "Expert-in-Residence"
                Company Name: "General Assembly"
                Date: Sept 2012 - Oct 2014
                - Assisted instructors in full-time and part-time
                  Front-End  courses.
                - Worked one-on-one with students, graded
                  assignments,  provided feedback to help improve
                  skills as developers.
        },
        {

                Title: "Front-End Developer"
```

```
        Company Name: "Nextdrift Technologies"
        Date: Jan 2012 - May 2012
            - Built a virtual library for books focusing on
              developing  leadership skills.
            - Developed a ticker which displayed local sports and
              weather reports on televisions in bars and restaurants.
    },

    {

        Title: "Assistant Front-End Developer"
        Company Name: "Bentley University, Center of Alumni"
        Date: Oct 2009 - Dec 2011
            - Implemented a flip-book plugin for the monthly
              newsletter, The Bentley Brief.
            - Created custom macros in Excel for monthly reports
              based on  Bentley Brief user interactions.
            - QA and bug fixes for alumni related sites.
               Managed social media posts for Facebook, Twitter,
               and  LinkedIn.
    },

    {

        Title: "Assistant Front-End Developer"
